

Acushnet Elementary School offers free preschool screenings for children who are 2 ½ to 4 years of age. If you are interested in enrolling your child in our preschool program or if you have any concerns regarding your child's speech, listening skills, physical coordination or the ability to grasp new ideas, please call the Special Education Office at 508-998-0258 to schedule a screening appointment. You can also contact our office if you have a child between the ages of 3 to 21 with any of the same concerns. The last day for preschool screening appointments this school year will be May 1, 2010.
