Stephen R. Donovan  
Superintendent of Schools

Kristin L. Flynn  
Business Manager

Dear Parent/Guardian:

As you may know, flu can be easily spread from person to person. Therefore, we are taking steps to reduce the spread of flu in the Acushnet Public Schools.

We are working closely with the Acushnet and Massachusetts Board of Health to monitor flu conditions and make decisions about the best steps to take concerning schools. We will keep you updated with new information as it becomes available.

For now, we are doing everything we can to keep our school functioning as usual. Here are a few things you can do to help.

- **Teach your children to wash their hands** often with soap and water or an alcohol-based hand rub. You can set a good example by doing this yourself.
- **Teach your children not to share personal items** like drinks, food or unwashed utensils, and to cover their coughs and sneezes with tissues. Covering up their coughs or sneezes using the elbow, arm or sleeve instead of the hand when a tissue is unavailable.
- **Know the signs and symptoms of the flu.** Symptoms of the flu include fever (100 degrees Fahrenheit, 37.8 degrees Celsius or greater), cough, sore throat, a runny or stuffy nose, body aches, headache, and feeling very tired. Some people may also vomit or have diarrhea.
- **Keep sick children at home** for at least 24 hours *after* they no longer have fever or do not have signs of fever, without using fever-reducing drugs. Keeping children with a fever at home will reduce the number of people who may get infected.
- **Do not send children to school if they are sick.** Any children who are determined to be sick with flu-like symptoms will be cared for by the school nurse and may be required to wear a surgical mask while waiting to be sent home.

If the flu becomes more severe, we may take additional steps to prevent the spread such as conducting active fever and flu symptom screening of students and staff as they arrive at school and dismissing students from school for at least 7 days if they become sick.

For the latest information on the flu, visit the Acushnet Public Schools website at [www.acushnetschools.us](http://www.acushnetschools.us) or call 1-800-CDC-INFO. We will notify you of any additional changes to our school's strategy to prevent the spread of flu.

Sincerely,

Stephen Donovan  
Superintendent of Schools
